#### SALT POND 1985

To a first time visitor to Eastham it is a real treat to slog around at the shore and go home with the reward of a chowder. To passers-by on the highway, it appears to be a mystical religious experience. To some local residents, it is a meaningful part of the food budget.

The event is Sunday quahogging at Salt Pond, an event which attracts some four thousand visitors during the course of the year, and as many as five hundred on a given afternoon. The schedule for times when digging is allowed is on this page, and information concerning permits, regulations, measuring rings for the 2" minimum size are available at Town Hall.

Each family may obtain a permit and gather shellfish in the town for a taste of truly fresh shellfish. Many people regard the activity as a new part of their education; some just enjoy wandering about the marshes and flats by themselves and are not too concerned about gathering their limit of shellfish.

Whatever your reason, don't overlook this opportunity for outdoor recreation.

#### THE EASTHAM HISTORICAL SOCIETY

Eastham is one of the oldest towns in the Commonwealth, and among its earliest families were three 'Old Comers' or passengers on the first voyage of the Mayflower. One of its founding families, the Doanes, probably gave the town its present name, since they were from Eastham on the Mersey in Cheshire, England. There are still Doanes living there today

With its long and varied history, it was only natural and probably inevitable, that the town would find citizens interested in preserving that history and its artifacts. The Eastham Historical Society, since its inception, has managed to acquire many important and interesting collections of memorabilia through the generosity of its citizens and members. These collections are housed in two structures that are historically important in themselves - The Swift-Daley House (c.1741) and the Old Schoolhouse (c.1869). Both buildings are open to the public during the summer months. Entrance fees are reasonable and designed for the family. Members are admitted free and annual dues are \$2.00. The only requirement for membership is an interest in the aims of the Society.

The Swift-Daley House is located on Route 6 next to the Post Office. Its bowed roof is typical of early houses built by ship's carpenters. The wide board floors, panelling, deep kitchen fireplace, Victorian parlor fireplaces, narrow stairways and other features date to an earlier time. The house is completely furnished, and has a number of interesting collections including clothing, china, local Indian artifacts, quilts, and household equipment. It is open during July and August on Wednesdays and Fridays from 1:30 to 4:30 PM or by appointment (call 255-3380).

The Schoolhouse Museum, directly across from the National Seashore Visitors' Center, is the only remaining one of three schoolhouses, all built in 1669, that served the town until 1936. The building had been abandoned and in disrepair until rescued by the Historical Society and restored through the efforts of local citizens and summer visitors. The Museum contains artifacts from various parts of the town's history; including farming, shipwrecks, the Life Saving Service, the school, and daily life in the town. Archives and oral history material are also stored here, along with Geneological pamphlets sold by the Society. Museum hours are 1:30 to 4:30PM, Monday through Friday during the summer season (July and August). The Society sponsors some summer programs, and information about them can be obtained through local newspapers and bulletin boards at the Town Hall and the Library.

Take Time to Visit

#### A VISIT TO GIGI POTTERY

If you turn off the road on Route 6, North Eastham, at the red and yellow Pottery sign, and drive down Gigi Lane for about 100 yards, you will be richly rewarded for-your adventurous spirit. You will find yourself at Gigi Pottery where you are warmly welcomed by artist-potter Bernie Epstein, who is also part philosopher, teacher, chemist, geologist, and friend. Bernie will invite you to look around, touch, and ask questions. Time appears to stand still as Epstein quietly and determinedly plies his millennium-old craft in a carefree ambience of clay, utensils, pots, and glazes.

On a recent visit to Gigi Pottery, Bernie was found carefully carving imported bamboo handles for a freshly fired tea pot. Within a few minutes a car with four children and two adults drove up to the workshop. As soon as Epstein saw the children, his eyes lit up, the pottery wheel began to spin, and a lump of clay almost magically became a graceful vase as the children watched spellbound.

A look around the pottery shop reveals a charming variety of pottery...all shapes, sizes, colors, and prices. Casseroles, mugs, honey jars, pie plates, chowder bowls, goblets, pitchers, planters, mirrors, clocks, candelabras, and sculptures artfully line the shelves, walls, and entrance way of Gigi Pottery.

Epstein explained that all of his pottery is made of either stoneware or porcelain. Porcelain is a pure white clay that has not been mixed with minerals, whereas stoneware is a variety of clay and minerals.

Epstein is especially proud of his "Chinese red" glazes for which he is well known off Cape Cod as well as on Cape.

As Epstein was explaining how he combines Nauset Beach sand and decomposed granite with his clay to obtain special effects, another car pulled up and a young couple greeted Bernie with a warm, "Hello, we have come back to see your watercolors." They walked out of the shop with their purchases of a painting and mugs, and a farewell greeting of, "See you again next year...we wouldn't leave the Cape without a visit to Gigi Pottery."

(As compiled by Cape Cod Chamber of Commerce.)

We in Eastham are fortunate regarding our weather. Situated between the Atlantic Ocean and Cape Cod Bay, the stabilizing effect of both bodies of water tend to keep Eastham cooler in the summer and warmer in the winter than the mainland, or for that matter most of the Upper Cape.

## The True Cape Cod House . . . And Why?

One of the most widely imitated forms of architecture in America is the Cape Cod house, which was created by early settlers on the Cape to meet their requirements of comfort, economy and family expansion. Built close to the ground to withstand winter gales, they invariably faced the south to take advantage of the warm sun and gentle prevailing southwest winds. The true Cape houses are easily identified as being one of three types, as illustrated in the above sketches: the 'half house' with two windows one side of the door; the 'three quarters' with two windows on one side and one on the other side of the door; and the "full Cape" which has two windows on either side of the door.

Each type was built to suit the needs of the owner, his economic position as well as his immediate family needs at that stage in his life. The basic floor plan was simple and allowed for easy expansion as the need arose. They had certain elements in common: the massive chimney, usually of brick, was built opposite the front door and up thru the ridge of the roof. It served all of the fireplaces located in the rooms and the stairway leading to the upper floor. The houses were built of planks generally harvested and hewn from nearby forests; the sides and the roofs were pine shingled and allowed to weather in the salt air to a soft grey color.

Although there are examples of the 'pure Capes' in our town today, most of the "half houses" and the "three quarters" have had ells built onto them. Without a doubt some of the timber used in these extensions came from dismantled saltworks and shipwrecks. There is a fine display showing models of the three types and their construction at the Cape Cod National Seashore Visitors Center in Eastham.

THE FIRST ENCOUNTER

Seeking a likely place for settlement, the Pilgrims thrice sent out exploring parties from the Mayllower, which swung at anchor in Provincetown harbor. On the second day out the third expedition camped the night of December 7th, 1620, beside a fire and barricade near the bay shore of Eastham. There were seventeen men in the group led by Captain Myles Standish.

Toward morning the Nauset Indians attacked. Although awed and surprised, the Pilgrims under the cool leadership of Captain Standish, quickly returned shots for Indian arrows and the Indians were driven off.

Neither Indian nor Pilgrim blood was shed that day, it is pleasant to relate. Happy in their deliverence, the Pilgrims grubbed from the leaves eighteen arrows and became perhaps the first souvenir hunters in America. They sent the arrows back to friends with Captain Jones of the Mayflower. The site of that First Encounter has since appropriately been marked by a bronze tablet, where Samoset Road meets Cape Cod Bay.

#### SALT MAKING

Eastham at one time had as many as fifty salt-making plants. The salt-making business reached its peak about 1830 when western and foreign salt started coming in and the price of pine lumber from Maine, used for making vats, increased prohibitively. Dr. Palfrey at the Bicentennial in Barnstable, in 1839 spoke of voyaging 20 miles, south of Provincetown, along a shore which seemed built of salt vats. At that time, it took more than 300 gallons of sea water to make a bushel of salt, and boiled down, was worth \$8.00. Solar evaporation of salt was patented in 1799 by a Dennis man.

#### AGRICULTURAL PRODUCTS

Indians raised quantities of corn in Eastham on what was called the Plains of Nausct, and white settlers produced it for export. From one to three thousand bushels were sold from the town in some years. Single farms raised as much as five hundred bushels of grain, and a yield of 800 bushels was credited to one farm. As late as 1920 there were 1700 acres with hardly a vegetable mould, that had once produced corn and wheat. A couple of decades after the landing of the Pilgrims, people in Plymouth seriously considered transplanting the whole Plymouth Colony to the flat and sea girt town of Eastham, largely

#### EASTHAM PUBLIC LIBRARY

Our Public library has one of the lovellest locations in town. It is located on Samoset Road just west of the Windmill overlooking Long Pond. There is a convenient off-street parking area behind the library.

The original building was built in -897 by the Village Improvement Society (which explains the inscription over the library door) and was given to the town in 1903. During 1976 the Trustees published a short history of the library, written and researched by Helen Schwind. Copies of this history are still available at the library.

Librarian Jane Eldridge and her staff are available to assist you in book selection, reference help, stc. We are fortunate to have a full time children's fibrarian in the summer. In addition to helping parents; and children choose books, she conducts-programs for a variety of ages and interests. This year, for the first time we have records and cassette/book kits in circulation. These new additions to the children's section have been very popular.

The Trustees and the I brarian Invite everyone to wait the Eastham Library. We are proud of our collection of books: current and older faction and non-fliction books about Cape Cod and by Cape authors, an outstanding geneological research section, and a rapidly growing children's collection.

in addition to books, there is the unique bicentennial guilt made by ladies of Eastham, deploting traditional scenes of Eastham Life.

# Bayside LOBSTER & HUTT

Commercial Street, Wellfleet, Cape Cod

On the road to Wellfleet Harbor in an old white shingled cyster shack, a daily lobster orgy takes place, amidst tanks marked 'see 'em swim.' Devoted patrons, who are convinced the best lobster feast is eaten in the rough, help themselves to seafood cooked clambake style.

In addition to lobsters there are also steamers, corn on the cob and other fresh seafood dinners and daily specials baked, fried and broiled. There is also a Salad Bar-Raw Bar and "we make our own chowder." The restaurant operates self-service and is strictly informal. There is no liquor license, but you are invited to bring your favorite beer or wine.

The 'Lobster Hutt' is a local Wellfleet institution, popular because the seafood is fresh from the cape waters and the prices are always reasonable.

#### Eastham Non-Resident Taxpayers Association

#### COMMON BOND

We are a group of people who found the town of Eastham to be an excellent environment for our summer vacations. Now almost all of us have part-time homes here. We come with our families and friends to relax and enjoy the beauty of the surf, the pends, the beaches and the sun. Many of us dream of a time when we can stay right on after the summer ends and never go back to that busy mainland. This would permit even more enjoyment of the many available town and church sponsored activities. We are rightfully interested in conservation, preservation, and proper utilization of the area along with Town Planning, the efficiency of the Police and Fire Departments, the condition of the beaches, the water supply and the many facets of town government that affect us directly.

#### PURPOSE

Our primary objective is to work toward the betterment of the Town of Eastham. Our organization also serves in many instances as a liaison between town officials and non-resident taxpayers. We send out newsletters and hold two meetings during the summer to discuss our views with representatives of the Selectmen, Town Counsel or Finance Committee, National Seashore or a State Legislator. They are not obligated to come to our meetings, but they do so. They listen, explain, and answer questions. All members have an opportunity to participate.

#### **ACTIVITIES**

Through questionnaires we poll the opinions of members. The Executive Soard coordinates the requests for remedial action when required. We are making a sustained effort to allow non-resident taxpayers to vote in Eastham town affairs other than elected officials through submission of bills in the Massachusetts Legislature. If you are a property owner who pays taxes in Eastham, but is not allowed the right to vote here on town budget items, you will undoubtedly be interested in joining our association that now includes approximately half of all the non-resident property owners from 25 states, including Hawaii and Alaska, plus Quebec and Montreal.

#### UNITING FOR STRENGTH

If you are not a member, why not join us? The more members we have, the greater our influence. We hope to enlist the entire group of more than 2,000 non-resident taxpayers in Eastham who together contribute some 70% of the town's tax revenue.

#### **ADDRESS**

If you are interested, write to Box 772, Eastham, MA 02642

**DUES: \$3.00**

President, Joseph Oneschuk; Vice President, Nancy Marshall; Secretary, Kathleen Oneschuk; Treasurer, O. Mason Sam Burrows

# Please. No tears.

Newcomers sometimes cry when they visit us — they've shopped to the wall elsewhere, and here the Beautiful Things begin! American and continental art glass, M.A. Hadley Pottery, a collector's showing of Russian lacquer boxes, Scottish neckwear tartans, a museum shop of jewelry — all shoulder to shoulder with Tree's mind opening ceramic tile display. And whether a bronze cheese prong (\$2.50) or an heirloom quality Swiss music box (up to \$2400) nothing is "resort priced," no gifte shoppe stuffe. Please, no tears — just visit Tree's Place first.

Tree's main showroom is at the intersection of Routes 6A and 28, about midway between Hyannis and Provincetown. Take Route 6 and, at the Orleans Rotary, turn toward Orleans about 1/2 mile.

# AUTUMN, A PICTURESQUE VACATION TIME ON CAPE COD

"Most persons visit the seaside in warm weather, when fogs are frequent, and the atmosphere is wont to be thick, and the charm of the sea is to some extent lost. But I suspect that the fall is the best season, for then the atmosphere is more transparent, and it is a greater pleasure to look out over the sea. The clear and bracing air, and the storms of autumn and winter even, are necessary in order that we may get the impression which the sea is calculated to make. In October, when the weather is not intolerably cold, and the landscape wears its autumnal tints, such as, methinks, only a Cape Cod landscape ever wears, especially if you have a storm during your stay, that I am convinced is the best time to visit this shore. In autumn, even in August, the thoughtful days begin, and we can walk anywhere with profit. Beside, an outward cold and dreariness, which make it necessary to seek shelter at night, lend a spirit of adventure to a walk." - Henry David Thoreau, in his book CAPE COD based on his visits here in the late 1840's and '50's.
